RIPOLL ANTOINE

Born April 30th 1964 in Sainte Adresse, France - Lives and works in Mallorca, Balearic islands, Spain.
 It all starts in 1994 in New York City where I get to meet artist painter David Mc Dermott. I find myself very much attracted and inspired by this brand new art scene opening up to me. Back in France, I start making lamps with iron and resin. I take a turn in 1999 and devote myself to sculpture first, and then painting from 2002.

My paintings and sculptures are done in flat tints of bright-colored acrylic paint, pop-art style.

My work goes beyond the scope of esthetic considerations, and it is important for me to get messages across, such as love, politics, consumerism, nature, history, humor Vincent Van Gogh, Roy Lichtenstein, Keith Haring, Robert Combas, Joan Miró, Salvador Dali are artists that have influenced me greatly.
